```
PayRoll Management System
```

ES1 - As an administartor of the payment department, I want to be able to make payments of all employees on Payroll System, so that I get more time to manage my team.

ES2 - As a user of the payroll system, I want to compute net pay, earnings and non-federal tax deductions so that I know my exact in-hand salary.

ES3 - As a user of the payroll system, I want to take reports, so that I can validate and check financial information about the payroll process.

ES4 - As an administrator of payroll system,I want to maintain a record of employee's leaves.

ES5-As an administrator, I want to manage and update employee data

---

ES1 - As an administartor of the payment department, I want to be able to make payments of all employees on Payroll System, so that I get more time to manage my team.

US1 (ES1) - As an administrator of the payment department, I want to process and calculate the employee payments so that I don't have to do the sums individually.

ES2 - As a user of the payroll system, I want to compute net pay, earnings and non-federal tax deductions so that I know my exact in-hand salary.

US1(ES2)-As a user,I want to have user login so that I can access my data reports.

US2 (ES2) - As a user, I want to know my basic pay and gross pay along with net pay so that I know how much I am being paid.

US3(ES2)-As a user, I want to know the different type of allowances I will get and the amount associated so that I can monitor my performance and perks.

US4(ES2)-As a user, I want to get information about the types of taxes imposed and corresponding reduction amount so that I know the exact amount of salary I will get.

ES3 - As a user of the payroll system, I want to take reports, so that I can validate and check financial information about the payroll process.

US1 (ES3) - As a user, I want to generate a data report with working days and total pay net for all employees so that I can get an idea of the overall statistics for my company.

US2 (ES3) - As a user, I want to generate a data report with all legal (taxes) and non-legal deductions(performance-based and leaves) so that I can judge the transparency of my company's tax policies.
